From Redondo to Rarotonga

Hokule'a and Solstice - both all the way from Redondo Beach, California - are at present the sole inhabitants of the construction zone that is the Avatiu harbour. Hokule'a crew consists of husband and wife team Jackie and Jake Adams, and their sister boat Solstice is captained by Bill Babington. Both yachts are travelling together, and passed through Mexico, the Marquesas and Tuamotus and the Society Islands on their way to Rarotonga. Once Solstice receives some replacement parts from New Zealand, the pair of yachts will set sail for Niue, Tonga and then New Zealand.
